授業の概要／Course outline

Intermediate English 2 is a learner-centered course designed around the functional use of language and the communicative needs of University of Aizu (UoA) computer science students. Therefore, English is viewed principally as a tool for communication, and learning content and activities are chosen that best enable learners to effectively acquire and apply English language knowledge and skills in situations they encounter during their academic studies at UoA.

This course is organized around a set of 5 key functions fundamental to academic communication and designed to teach a collection of vocabulary and language patterns learners need to perform these functions. At the same time, topics are included that provide learners in the field of computer science with a realistic and practical context for the language they are learning so that the authenticity, relevance, and utility of the language material to the learners' needs are brought to the fore. Furthermore, the course aims to **increase learner fluency** in receptive (listening/reading) and productive (speaking/writing) language skills essential for meaningful communicative interaction through a balance of online and face-to-face activities. Finally, learners will be introduced to methods of language learning that will assist them with their life-long learning needs.

Upon successful completion of this course, students will have:

- 1. Developed English language competency in applying key academic functions.**
 - a. Generalization
 - b. Personal Opinion
 - c. Arguments
 - d. Prediction
 - e. Hypothesis
- 2. Increased fluency in English language listening, speaking, reading, and writing.**
 - a. “Listening” – LISTENING/WRITING
 - b. “Quick Discussion” – SPEAKING
 - c. “Shadowing” – LISTENING/SPEAKING
 - d. “Quick Reading” – READING
 - e. “Oral-Pair Reading” – READING/LISTENING/SPEAKING
 - f. “Pronunciation” – LISTENING
 - g. “Dictation” – LISTENING/WRITING
- 3. Developed effective independent English language learner skills.**
 - a. Homework
 - b. Fluency activities
 - c. Unit Writing Assignment

Class 1. Course Orientation (This class)

Class 2. Generalization A

Class 3. Generalization B

[A generalization is the formulation of general concepts from specific instances by abstracting common properties.]

Class 4. Personal Opinion A

Class 5. Personal Opinion B

[A personal opinion is an individual's viewpoint or belief about something.]

Class 6. Arguments A

Class 7. Arguments B

[An argument is a process of reasoning and advancing proof.]

Class 8. Midterm Examination: Units 1 to 3

Class 9. Prediction A

Class 10. Prediction B

[A prediction is a forecast or statement about a future event or trend based on current evidence or knowledge.]

Class 11. Hypothesis A

Class 12. Hypothesis B

[A hypothesis is a tentative explanation or prediction about a phenomenon or set of observations.]

Class 13. Synthesis A: Review of all 5 functions.

Class 14. Synthesis B: Review of all 5 functions.

Exam Week. Final Examination: Units 1 to 6

Participation: 10%

- Class participation
- Activity completion

Homework/Quizzes: 40%

- In class Vocabulary Quiz
- Topic Introduction: Completion mark
- Vocabulary: (Repeatable/Highest Score/Deadline following class)
- Pronunciation: Marked (Repeatable/Highest score)
- Dictation: Marked (Repeatable/Highest score)
- Unit Written Assignment: Each unit has one written assignment approximately 150 words in length.

Mid-term Examination: 20%

- Includes all material from Units 1 to 3
- Functions: **generalization**, **personal opinion**, and **arguments**
- In class examination (computer-based)

Final Examination: 30%

- Includes all material from Units 1 to 6
- Functions: **generalization**, **personal opinion**, **arguments**, **prediction**, **hypothesis**, and **synthesis**
- In class examination (computer-based)

*Attempting both the Mid-term and Final examinations is required to pass the course.

**If an examination is not attempted for legitimate reasons, extra work may be assigned.

It is the sole responsibility of the student to inform the instructor in a timely manner of any reason for being **absent/late** from class or missing a submission deadline.

Attendance rules will follow the UoA guidelines on the number of allowed absences.

Students who arrive **more than 15 minutes late or leave more than 15 minutes early** (without reason) will be considered absent.

Late assignments (without reason) will lose 10% per day (not by class).

After five days, a late assignment will receive a mark of 0%.

Cheating or plagiarizing of others' work will not be tolerated, and any punishment will follow the UoA guidelines. Please save periodic drafts of all written assignments as you may be asked to provide it.

This includes the use of AI "Chatbots" used to complete written assignments.

Let's look at the class and homework activities.
